

National Board Certification

Component 3 Roadmap

Teaching Practice & Learning Environment

2

FOCUS

The focus is on your ability to demonstrate evidence of your practice and analysis as it relates to instructional planning, student engagement, and the learning environment.

1

30%

Component 3 is 30% of your total score. Print out and thoroughly read the [component instructions](#).

3

IDENTIFY

In the component instructions, identify the standards you are asked to meet in Component 3, see page 1 & 2.

4

DESIGN

Design two different lessons that demonstrate different instructional formats. Use Knowledge of Students to guide your selection.

6

VIDEO EDITS

You are allowed two video edits, but ONLY for the reasons of moving a class to a different physical setting, responding to safety drills, or changing the battery.

5

VIDEO

Submit two 10-15 minutes. It is better to submit 15 minutes because it allows you the ability to show more and include more evidence. Videos must be taped in one class setting. [The General Portfolio Instructions](#) includes video tips and suggestions.

7

SUBMIT

Both your component instructions and the included Electronic Submission at a Glance will define what and how you submit your materials.
