## National Board Certification Component 4 Roadmap Effective & Reflective Practitioner

The focus is on your ability to use knowledge of students to demonstrate a positive impact on your students' learning through use of the assessment cycle and collaboration with parents, community, and colleagues.

15%

Component 4 is 15% of your total score.

Print out and thoroughly read the

GROUP PROFILE

In the component instructions, identify the standards you are asked to meet in Component 4, see page 1 & 2.

Collect quantitative and qualitative data on your group of students from a variety of sources (assessments, family, students...etc.) Knowledge of Students (KOS). You will use this information to drive your instructional decisions and to complete the remainder of this component.

ASSESS

Reflect on your practice to determine a professional learning need and student need that requires advocacy and collaboration. Needs must be clearly connected to student learning and your practice.

Identify goals (objectives) from the data collected from your group profile. Lead your students through the assessment cycle paying close attention to use of formative assessment to realign and or adjust your goals/objectives as needed for the need of your students.

Both your component instructions and the included Electronic Submission at a Glance will define what and how you submit your materials.
